

# Website Accessibility Statement for Private Entities pursuant to Article 3, Paragraph 1 of Law No. 4 - January the 9th 2004

## Declaration

MONTEFARMACO OTC SPA undertakes to make its website accessible, in accordance with Law No. 4 of January the 9th, 2004. This accessibility statement applies to:

<https://montefarmaco.com/>

## Compliance status

### Partially compliant

This website is partially compliant with the requirements set forth in Appendix A of the UNI CEI EN 301549 standard due to the non-compliance cases listed below.

## Non-accessible content

The following content is not accessible for the following reason:

a. Non-compliance with Law No. 4 of January the 9th, 2004:

- C.9.1.1.1 – Some non-text content presented to users lacks a text alternative serving the same purpose;
- C.9.1.2.2 – Some pre-recorded audio content lacks synchronized subtitles;
- C.9.1.2.3 – Some pre-recorded multimedia lacks an alternative or audio description;
- C.9.1.2.34 – Some multimedia lacks real-time captions;
- C.9.1.3.1 – In some cases, information, structure, or relationships conveyed through presentation cannot be programmatically determined (or are not available via text);
- C.9.1.4.1 – In some cases, color alone is used to identify meaning or distinguish information or functionality;
- C.9.1.4.3 – The visual presentation of text and images of text does not always meet the minimum contrast ratio required, with exceptions (e.g., logos);
- C.9.1.4.4 – Some text, excluding captions and images of text, cannot be resized up to 200% without assistive technology, without content or functionality loss;
- C.9.1.4.5 – In some cases, images of text are used instead of plain text and are neither customizable nor essential to the conveyed information;
- C.9.1.4.10 – Content not requiring two-dimensional layout (e.g., tables, maps) does not reflow when user agent display size changes;
- C.9.1.4.11 – For some essential components, color contrast with adjacent elements does not exceed 3:1;
- C.9.1.4.12 – Adjusting text spacing (line height, paragraph spacing, letter or word spacing) may result in content or information loss;
- C.9.2.1.1 – Some functionalities are not operable through a keyboard interface (or similar input);

- C.9.2.1.2 – Keyboard focus cannot be moved to a page component via keyboard interface, and no method is provided to do so;
- C.9.2.2.2 – Some animations, blinking, scrolling, or auto-updating content exceeding five seconds or running in parallel with other content lack mechanisms to stop or hide them;
- C.9.2.4.1 – No mechanism is available to skip repeated content blocks across multiple pages;
- C.9.2.4.3 – On pages navigated sequentially, some focusable objects are not ordered to maintain meaning or operability;
- C.9.2.4.4 – The purpose of some links cannot be determined from the link text or from the link text together with adjacent content;
- C.9.2.4.6 – Some headings and/or labels do not clearly describe content or functionality;
- C.9.2.4.7 – Some interactive elements lack visible focus indicators;
- C.9.2.5.3 – For some UI components with labels containing text or images of text, the accessible name does not contain the visually presented text;
- C.9.4.1.2 – For some UI components (e.g., form elements, links, script-generated components), name, role, state, properties, and values are incorrect or not set, or users/assistive technologies are not notified of changes;
- C.9.4.1.3 – Some status messages are not presented in a way that assistive technologies can interpret them without moving focus.

## Accessibility statement drafting

This statement was drafted on **June the 27th, 2025**.

The evaluation was carried out by a third party through objective and subjective assessments (see Article 3, Paragraph 1 of Commission Implementing Decision (EU) 2018/1523).

The statement was last reviewed on **June the 27th, 2025**, following the recommendation to review its accuracy periodically (at least annually).

## Feedback and contact information
